

Sana Zahir

List of Publications:

1. Human Behavior Understanding in Big Multimedia Data Using CNN based Facial Expression Recognition
2. Machine learning based missing data imputation in categorical datasets
3. Robust counting in overcrowded scenes using batch-free normalized deep ConvNet
4. Pilot study of topical acetyl hexapeptide-8 in the treatment for blepharospasm in patients receiving botulinum toxin therapy
5. An effective deep learning-based approach for splice site identification in gene expression
6. Vision sensor assisted fire detection in iot environment using convnext
